

Early and Periodic Screening, Diagnostic, and Treatment Services (EPSDT)

Subject: Early and Periodic Screening, Diagnostic, and Treatment Services (EPSDT)	Effective: 7/1/2018
Policy #: CCS315	Review Schedule: Annual or as needed

Policy:

For children and youth ages 20 and under, Colorado Access provides (or arranges for the provision of) all medically necessary services, both those covered in the Capitated Behavioral Health Benefit, and those that are not covered in the Capitated Behavioral Health Benefit.

Applicability:

Utilization Management

Care Management

Regional Accountably Entity Region 3

Regional Accountable Entity Region 5 (including Denver Health MCO)

Definitions:

1. Early and Periodic Screening, Diagnostic, and Treatment (EPSDT): for members 20 and younger, any medically necessary service to treat any physical, dental, or mental health diagnosis is covered under the Health First Colorado (Medicaid) benefit. Covered services include:
 - a. Well-child visits and teen check-ups
 - b. Developmental evaluations
 - c. Behavioral evaluations and therapies
 - d. Immunizations
 - e. Lab tests, including lead poisoning testing
 - f. Health and preventative education
 - g. Vision services
 - h. Dental services
 - i. Hearing services
2. Medical Necessity for EPSDT services: a program, good, or service that:
 - a. Will or is reasonably expected to prevent, diagnose, cure, correct, reduce, or ameliorate the pain and suffering, or the physical, mental, cognitive, or developmental effects of an illness, condition, injury, or disability. This may include a course of treatment that includes mere observation or no treatment at all.
 - b. Is provided in accordance with generally accepted professional standards for health care in the United States
 - c. Is clinically appropriate in terms of type frequency, extent, site, and duration
 - d. Is not primarily for the economic benefit of the member, caretaker, or provider
 - e. Is delivered in the most appropriate setting(s) required by the member's condition
 - f. Provides a safe environment or situation for the member
 - g. Is not experimental or investigational
 - h. Is not more costly the other equally effective treatment options
3. Altruista Guiding Care: Documentation software used by Colorado Access. The system includes automatic documentation of activity by staff member and prompts for follow up.

Procedures:

- I. EPSDT Services covered under the Capitated Behavioral Health Benefit
 - A. Colorado Access arranges for the provision of the following services for members ages 20 and under through the EPSDT benefit:
 1. Vocational services
 2. Intensive case management
 3. Prevention/early intervention activities
 4. Clubhouse and drop-in centers
 5. Residential treatment
 6. Assertive community treatment
 7. Recovery services
 8. Respite services
 - B. COA-contracted network providers are required screen and assess members' treatment needs (even those not covered by the Capitated Behavioral Health Benefit) and provide the clinically appropriate services discovered by any screening or diagnostic procedure. Most EPSDT services do not require prior authorization (Residential treatment and respite services are the exception and do require prior authorization, see Section C); however, any EPSDT service is subject to medical record review to assure the following minimum requirements:
 1. Any request for mental/behavioral health screening or assessment must be accommodated. Any provider unable to completed a requested screening or assessment must contact Colorado Access for assistance.
 2. Any screenings and services must be performed by a provider qualified to furnish mental health services according to the staff requirements in the Uniform Service Coding Standards Manual for the relevant service.
 3. All screenings and services must be performed in a culturally and linguistically sensitive manner.
 4. Results of all screenings must be recorded in the child's medical record.
 5. Referrals to the member's primary care provider, Colorado Access, Healthy Communities, or other referral as appropriate for services not available at the provider's office.
 - C. Utilization Management (UM)
 1. Colorado Access requires prior authorization for Respite and Residential treatment, two services included in the EPSDT benefit. These services are reviewed according to the COA standard review procedures located in CCS 307 Utilization Review Determinations. If a requested service is denied as being not medically necessary, the member notice of action will include EPSDT language and list alternative treatment which can be approved in order to control, correct, or ameliorate the member's mental health condition.
 2. If a service typically covered under the Capitated Behavioral Health Benefit is denied due to a non-covered diagnosis or non-covered benefit for a member under age 21 (e.g., autism and/or applied behavioral analysis), the member may be able to receive services through the physical health benefit under EPSDT. The member notice of action include information about referrals to Healthy Communities and notification that a COA care manager will be contacting the member/family to assist with resources and referrals. When issuing a denial of this nature, the UM reviewer creates an Altruista activity within the member's chart for a care manager to follow up with the member/family. Activities are sent to the specific care manager who specializes in EPSDT care coordination.

II. Care Management

- A. Care Coordination services are available to any member or provider to assist with any EPSDT coordination needed as described in policy CCS305, including (but not limited to):
 - 1. Locating a provider and/or needed services
 - 2. Referral assistance for treatment not covered by the Capitated Behavioral Health Benefit but found to be needed as a result of conditions disclosed during the screening and diagnosis
 - 3. Assistance with transportation
 - 4. Assistance with scheduling appointments for services if requested by the member/family
 - 5. Resolving barriers or problems related to the EPSDT benefit, including (but not limited to) participation in any Creative Solutions meetings
 - 6. Referral and utilization of state health agencies, such as (but not limited to):
 - a. Vocational rehabilitation
 - b. Maternal and child health
 - c. Public health, mental health, and education programs
 - d. Head Start
 - e. Social services programs
 - f. Woman, Infants, and Children (WIC) supplemental food program
- B. If a care manager (CM) receives a referral/Altruista activity from a UM reviewer, the CM assigned will follow up with the member/family within 2 business days to assess strengths and barriers, and to provide the member/family with additional community or agency referrals.
 - 1. The CM will contact the member's primary care physician to provide an update on the denial of services.
 - 2. The CM will provide the member/family with referrals to the Community Center Boards (CCB), the Single Entry Point (SEP), Health Communities, or HCP programs as applicable.
 - 3. The CM will attempt contact three times using two different modes of outreach: two telephonic outreach attempts and one mailed letter (as necessary)

III. Distribution of information about EPSDT services

- A. Member communication: Information about EPSDT services is provided to members and their families in the following manners:
 - 1. Their [Health First Colorado Member Handbook](#) (starts on page 25)
 - 2. COA website: Colorado Access provides basic information about EPSDT services available to Health First Colorado members on the COA website. This also includes links to HCPF materials like Fact Sheets and Video Trainings for parents
- B. Provider communication: Colorado Access informs all network providers of the Medicaid EPSDT program information through the Provider Manual. Providers can find basic information about the services included under EPSDT and find links to additional information such as fact sheets, video trainings, and resources that can be distributed to parents. Any updates to EPSDT policies, procedures, or resources will be distributed via the monthly provider newsletter, the Navigator.
